EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David L. Tarnoff on March 7, 2007.

The application has been amended as follows: in claim 1 line 11 after inner end insert --non-movably--.

Allowable Subject Matter

2. Claims 1-3 and 5-19 are allowed.

3. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having a first lever portion having a first inner end operatively coupled to the attachment portion and a first outer end longitudinally spaced from the first inner end along a first longitudinal axis, a second lever portion having a second inner end non-movably fixedly coupled to the first lever portion between the attachment portion and the first outer end of the first lever portion with the second outer end that is longitudinally spaced from the second inner end along a second inner end along a second longitudinal axis that intersects the first longitudinal axis at an angle greater than zero; re claim 7, the first and second lever portions being constructed as separate members from each other that are non-movably fixed to each other and being arranged to move together when the first lever is operated
